

Two and Three Day Rafting Vacations!

Overview

Big Canyon Rafting offers overnight and three day river rafting holidays. These river based vacations are perfect for anyone looking to get away from it all in a beautiful wilderness setting. But don't be fooled by the abundant wildlife and extremely private river canyons. This trip is luxury. The service and food is amazing. Always a treat, you will be spoiled in every way.

General Trip Outline

Day one: Begin the day with meeting and greeting with all of the important details out of the way, we head to the river where we head downstream for a morning full of fresh air and big skies. Lots of wildlife and fun roller coaster waves. By lunch time the sunshine is high in the sky and we pull off the river at a perfect place to relax, while the guides prepare a river side buffet lunch and beverages. After an hour of this perfection, we get back in the rafts and head downstream for river camp.

River camps are excellent sites we have chosen for setting up our overnight and three day programs. When we arrive you will be given an orientation of the camp area and where you can explore etc, meanwhile the guides will be moving quickly to set up camp. After a short time camp is set and it's time to relax and sip a cocktail or take a short hike to watch the sunset with your significant other. Some people are made for building fire. That's our "fire" people. They like to collect wood and keep our fire going. Guides work hard during the late afternoon early evening in the kitchen (River Kitchen that we carry with us downstream on the rafts) preparing amazing and delicious appetizers and dinner. The food is excellent.

After a healthy portion of dinner, and a glass of wine you might catch the smell of something sweet in the air...a warm chocolate or pie scent...That just might be dessert! Most everyone has a perfect sleep on the river. It could be due to all the fresh air, river excitement, or full bellies, but we tend to think it is just that peace you were looking for. You cannot find this kind of escape anywhere outside of taking an exotic international holiday. Sleep away.

Morning comes with the best smell of coffee and spiced tea drifting through the air into your tent. Guides have been up busy preparing for the day and getting breakfast on. You will find morning to be very comfortable and much better than “roughing it”. We enjoy a wonderful breakfast and sip coffee and juices. Before long we break down camp and head back on to the river. Our river program finds us relaxing for the morning hours on the rafts, with some minor paddling and lots of time to photograph and take it all in. After another fine mid-day river side lunch, we get into

exciting whitewater and an opportunity to run some world class rapids. If you have chosen a three day package then your trip will continue another night of excellence and an additional day of whitewater!
